

## **Ways to support The Borgen Project**

### **Employee Engagement**

Host an information session for your employees on the issue poverty and how they can make a difference. By providing this platform, you are enabling a volunteer from The Borgen Project to raise awareness about an issue they are passionate about as well as educating your employees on how to influence change in their communities.

### **Executive Advocacy**

When the private sector and the nonprofit sector come together on an issue, it makes a compelling statement to Congressional leaders. Join The Borgen Project in a meeting with elected officials and share why your organization also supports reducing global poverty. Whether it be for business or because it's the right thing to do, help us make a stronger voice for the world's poor.

### **Donations**

As with any organization, nonprofit or for-profit, there are expenses in working towards a mission. Until passion and dedication are widely accepted forms of currency, The Borgen Project is dependent on the financial support of others. Incorporate The Borgen Project into your organization's Corporate Giving or Employee Matching Programs and help us continue to improve living conditions for those living on less than \$1 a day.

### **Corporate Partnership**

Over the past ten years, The Borgen Project has grown and sustained itself on the hard work of volunteers and individual donors. However, in order to achieve our goal of being present in all 435 Congressional Districts, The Borgen Project is looking to partner with organizations who support what we do and have the ability to make a substantial difference in our programs and operations.

Corporate Partners validate that poverty reduction is an issue not to be forgotten and provide intellectual and financial support towards expanding and enhancing our programs and efforts.
